The purpose of this evaluation of your work is for us to better understand your approach, execution, and creation of your artwork, as well as what may create problems for you. By viewing your efforts and making comments it is our hope to note how you approach your paintings. We can also make comments that may help you improve your work. We will evaluate each topic listed and give it a number, 1 to 10. (1 being the lowest and 10 being the best.)

This will help you understand areas where you may want to seek more information and knowledge. Whatever your medium or style, know that any of the jury members are always available to assist you in areas you feel you may need help. As CKAG members we all enjoy our art and want you to know that you are an important part of our membership. Good Luck!
